Note: The above Schedule of fees and charges has been prepared using the best available information in relation to the GST impact on the fees and charges at the time of publication. However, there are still a number of fees and charges for which Council is not able to confirm the GST status.

Accordingly if a fee that is shown as being subject to GST is subsequently proven not to be subject to GST, then that fee will be amended by reducing the GST to Nil. Conversely if council is advised that a fee which is shown as being not subject becomes subject to GST then the fee will be increased but only to the extent of the GST.
